

## OUR MISSION

Twenty percent of Oregon children live in low-income families, and for many of them, athletics isn't an option. Huddle Up was founded on the idea that youth athletics shouldn't be about the haves and have nots. Our mission is to help make youth athletics accessible to every child.

We live by the motto, "take care of your own backyard before crossing the street," thus we feel it our responsibility to partner with local school districts to help grant children access to the desperately needed extracurricular activities, athletics being just one of many. If we all took care of the schools in our "backyards", we could make substantive change.

## OUR PROMISE

We partner with Title 1 Public Schools (large concentrations of low-income students), and their surrounding communities, to build new regulation-sized athletic facilities for student-use. These facilities provide direct access and athletic programming for students and give school districts an additional means to generate revenue. Our facilities are designed to be assets for the children and districts alike.

### ABOUT US

It's simple: we build athletic facilities to help grant every child the opportunity to play sports.

## THE RICHARD "RICH" SCHWAB MEMORIAL FIELD

*at Maple Elementary*

The Richard "Rich" Schwab Memorial Field at Maple Elementary is Huddle Up's inaugural project. Donated to the Springfield Public Schools, the Rich Schwab Memorial Field is a true one-of-a-kind facility for the community. Huddle Up dedicated the facility to Rich in hopes of preserving his passion for youth athletics and his commitment to having a positive influence on the local community.
